

**Activity to support online video lesson:
Animal Communication**

1. Name and draw five senses animals use to communicate.

2. Name three methods leopards use to communicate.

3. Give two examples of animals that use echolocation.

4. Give an example of an animal that uses seismic (vibration) communication.

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment.
