

Activity to support online video lesson:

Clanwilliam Cedar

1. What is the conservation status of the Clanwilliam cedar?

2. We find the Clanwilliam cedar in a big altitude range of between ____m
and _____m above sea level.

3. _____ is a substance that makes the Clanwilliam cedar very
inflammable.

4. Why do we plant Clanwilliam cedars close to big rocks?

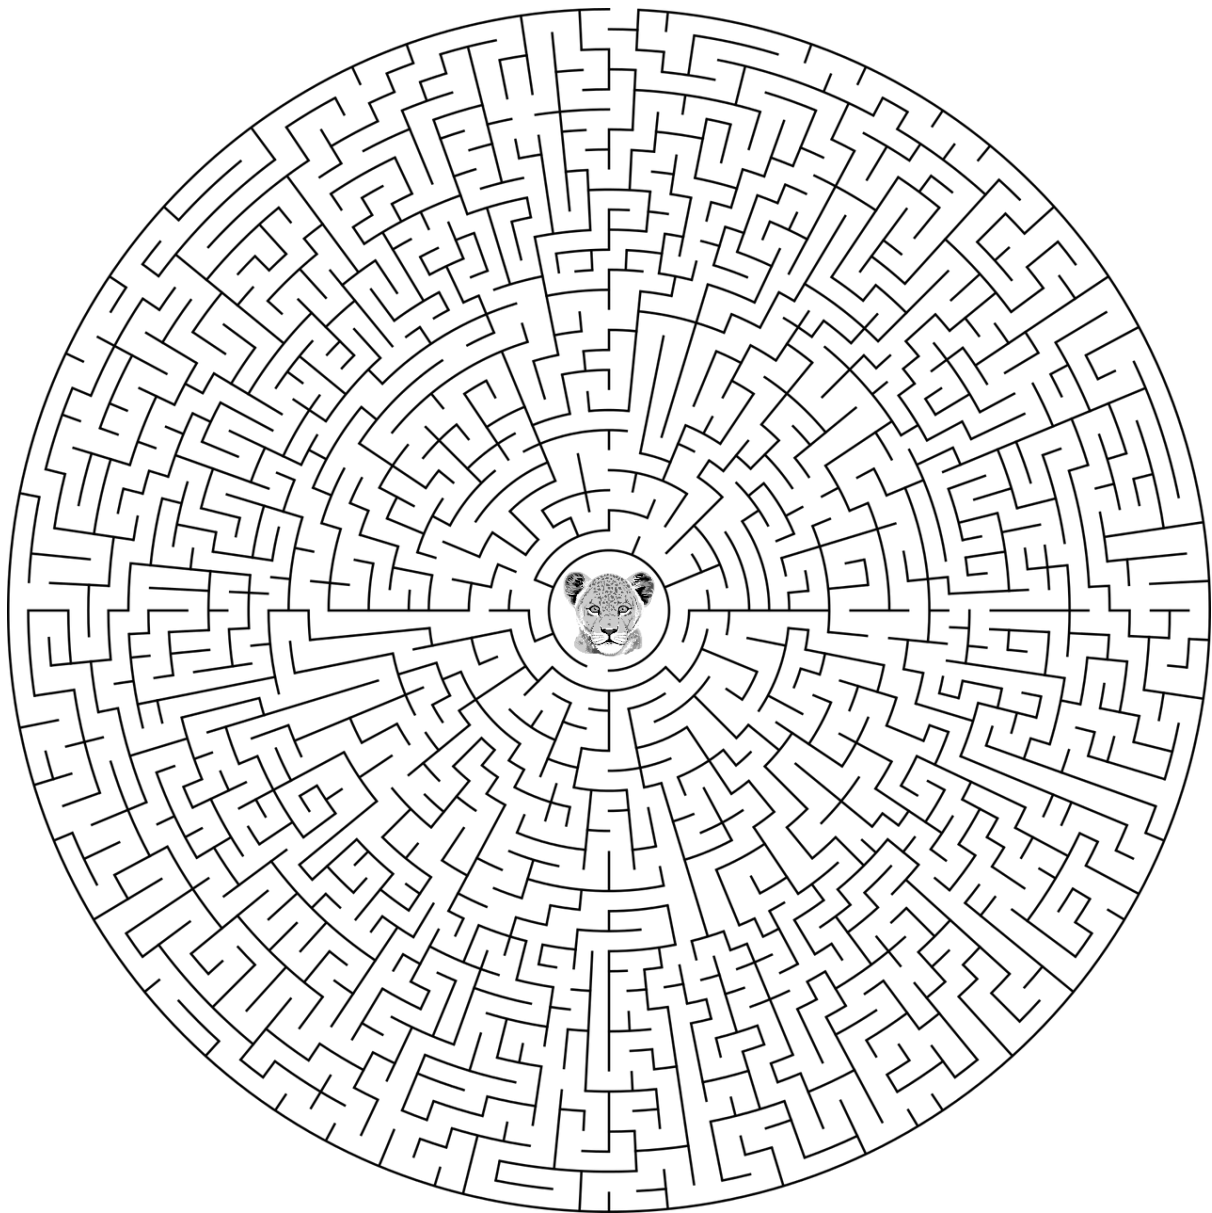

5. The Clanwilliam cedar relies on a mammal to disperse the seeds. Name
that animal. _____

6. When we plant Clanwilliam cedar saplings we must remember how these
seeds are dispersed that is why we plant these trees in

-----.

7. A high-intensity fire (hot) can kill adult plants but might also kill the
_____ that were stored underground.

8. You are trapped in the middle of this tree. Get yourself to the outside.

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment.
