

**Activity to support online video lesson:
Ecological Importance of Leopards**

1. In conservation we see the leopard as an _____ species thus protecting them will protect the whole ecosystem including valuable resources like water.
2. Name six problems we will encounter if we take the Apex predator, like the leopard out of an ecosystem.

3. Give two examples of primary consumers.

4. When all the animals in a trophic level disappear (die) we call it a population _____.

5. Wordsearch

MESOPREDATOR	LEOPARD
APEX	POLLINATION
CONSUMER	TROPHIC
PRODUCER	LIVESTOCK
GENETIC-POOL	ECOSYSTEM

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment.
