Environmental
Education Programme
Activity

Activity to support online video lesson:
Food chains and trophic levels

1. Draw a food chain with at least 5 organisms of which one being a leopard.

2. By looking at the trophic level pyramid please put the following terms at their correct spots. Primary consumer, Tertiary consumer, Primary producer and Secondary consumer.

3. By using the pictures below, draw arrows to create a food web between all the organisms.

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment.
