

Activity to support online video lesson:

Leopard: Tracks and Signs

1. Name the 5 signs we discussed in the lesson.

2. How do leopards ensure that their urine smell sticks to their feet so that the scent will be dispersed as they walk?

3. Give the 2 main reasons why leopards spray-urinate?

4. When leopards scratch a tree they sharpen their claws and groom them and also send messages to others leopards not only visually but also _____ because of the excretion of a _____ in between the toes.

5. The pad of a leopard track has _____ lobes at the back and _____ lobes in front.

6. You will know it is a leopard track because you will see the claw marks. TRUE/FALSE

7. There is a lot of calcium in digested bones therefore the colour of the droppings/faeces will turn _____ when exposed to sunlight.

8. Please circle all the signs belonging to a leopard.

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment.
