

Threats to Leopard of the Western Cape

1. Can you help the trapped leopard find his path out of the maze?

2. Explain in your own words the following terms:

2.1: Habitat fragmentation

- Clearing of natural habitat
- Alternative land use
- Example for agriculture or urban development

2.2: Habitat loss

- Large area transformed or divided into smaller, isolated patches by roads, farms, fences etc
- Reduces and prevents natural movement of wildlife

2.3: Human-wildlife-conflict

- Humans and wildlife compete for the same space and resources
- Negative impact on both

3. Name 3 indiscriminate and non-selective methods in which leopards are injured or killed

- Traps
- Snares
- Poisoning
