-----  
-----  
-----

**4. Fill in the missing word with regards to the differences between the 2 study areas.**

Research data revealed that in the \_\_\_\_\_, leopards mainly prey on dassies and Klipspringer, whereas in the \_\_\_\_\_, in addition to dassies and klipspringer, a major component of the leopards' diet includes \_\_\_\_\_ and \_\_\_\_\_.

**5. Circle the correct answer (2)**

5.1 Baboons are a major component of leopard diet.

True          False

5.2 Livestock is a major component of the leopard diet.

True          False

The Cape Leopard Trust Environmental Education Project facilitates experiences in nature that change the way young people see themselves and feel about protecting the environment. Our aim is to educate and empower young people through connecting them with nature and instilling an attitude of reverence and respect for the natural environment. To find out more about our work visit our website.
